

CONTRACT METAL FABRICATION

Seaberg Industries exists to be the best turnkey manufacturer of fabricated and machined parts, components and assemblies. We have the production capabilities for all your manufacturing needs.

WHY CHOOSE US

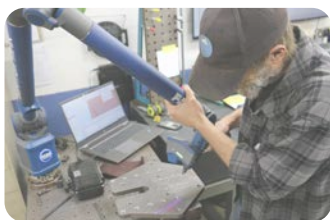

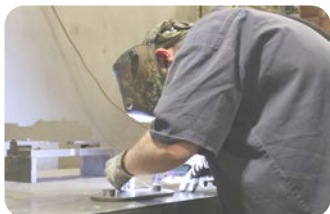

Engineering

We provide design and drawing services for any kind of custom metal fabrication prototyping or prototyping machine services.

Quality Control

- (3) Coordinate Measuring Devices
- ISIR, PPAP, First and Last Piece Inspections
- ISO Certified
- Approved supplier to large Ag and Construction OEMs
- GD&T

OUR CAPABILITIES

Laser Cutting

- 4KW CO2 Laser- 5/8" carbon steel
- 8KW Fiber Laser- 1" carbon steel, 1" stainless steel, 1" aluminum
- Both 5'x10' beds

Sawing

- CNC Miter Cutting HEM Bandsaw- Up to 60 degrees in both directions, 18" wide x 20" tall
- CNC Nishigmax 160 Cold Saw- 6.29" round and 4.3" square capacity

Machining

- (5) Vertical Machine Centers, Pallet Changer, Rotary
- (3) Horizontal Machine Centers
- Complex Fixturing

Forming

- (2) Straightening Presses
- (2) 400 Ton Press Brakes- 10' capability
- (1) 100 Ton Press Brake
- (1) 60 Ton Press Brake

Welding

- (26) Weld Booths- MIG, TIG, Soldering, Braising
- Fixturing of large complex weldments

Tooling

- On site design and manufacturing of tooling and fixturing

Assembly

- From bushings and grease zerks to complex assemblies
